SRI CAPABILITIES AND EXPERTISE

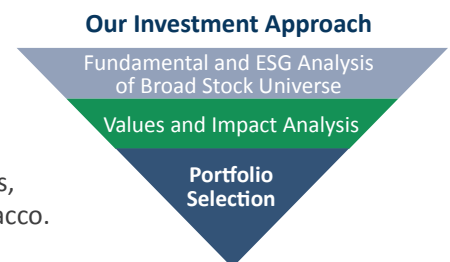

At 1919 Investment Counsel our multi-dimensional approach to socially responsible investing has been refined over the past 45 years. Our research-driven, fundamentally-based investment approach is conducted by a team of 12 investment professionals which includes 3 social impact analysts who utilize a rigorous screening process from both an SRI values-based and Environmental, Social and Corporate Governance (ESG) perspective.

ABOUT OUR SRI/ESG PROCESS

We evaluate each company through both SRI and ESG lenses to provide a more comprehensive perspective on the opportunities available.

Our comprehensive SRI/ESG process includes:

- **Negative Screening:** Eliminating companies whose products and/or activities do not meet our SRI/ESG guidelines regarding employment practices, human rights, the environment, weapons and tobacco.
- **Positive Impact Research:** Employing our proprietary positive-impact analysis to identify companies that are contributing in terms of our socially responsible investing screens and mandate.
- **Corporate Engagement:** Proactively communicating with the management of our portfolio companies to encourage positive social change.

Companies in our portfolio are then monitored to ensure they meet both our socially responsible and fundamental criteria on an ongoing basis. ■
